Hi Melanie,

Haven't talked to you for a couple of months. Hope you are doing well =)

In case you are still the chemical review manager for atrazine, I'd like to inform you of a petition from a group named Pitchfork Rebellion. Jill Bloom in OPP has been working with Region 10 and the petitioners on their concerns regarding health impacts due to forestry applications in Oregon.

So far EPA OPP, EPA Region 10, ATSDR, Oregon Dept. of Forestry, and Oregon Department of Agriculture are involved. You can obtain more details about this petition from Jill (Right, Jill?)

This is the latest email regarding the results from urine samples collected before and after application.

I will forward you an article in the Eugene Register Guard about positive samples next.

*Linda*
